Welcome to..

Ringwood
FENCING

Welcome to the wonderful world of fencing and gates at Ringwood Fencing.

We have specialised in this field for over 15 years and, by concentrating on good quality, keen pricing and fast service, become one of the leading suppliers in the North-West.

We are here to solve your fencing problems. You will find we've got a huge range of products, styles and materials, so large in fact, that we can hardly fail to provide the perfect solution for your home or business.

But that's only the start because at Ringwood Fencing we have the most flexible and obliging service you could ask for. You don't have to fit our service - our service is designed to suit you, the customer.

If you don't see exactly what you need from our huge product range then describe it to us - our skilled joiners

can create it in our special workshop. There's no limit to what we can offer.

If you want the full service of material supply and erection, you'll find our teams are skilled, efficient and fast. And if you simply want to buy and don't need the erection service, we will happily deliver the fencing wherever you want.

But whatever you buy, however you buy it, you can have the confidence that Ringwood products are made from quality timbers that are treated to give you best value and the longest life. Pressure treatment ensures best possible resistance to the harshest UK weather. And we at Ringwood make sure that everything is sourced from sustainable and managed forests.

Quite simply, we care about our products - and if it has the Ringwood name, it shows.

LANDSDOWNE RD, STAMFORD BRIDGE, NR TARVIN, CHESTER

GATES

Ringwood gates are available in a wide range of styles and finishes so you can select the perfect type and create an impressive entrance.

You can also influence the degree of privacy you wish to add to your entrance. Don't forget that we can create any of these styles to fit awkward or unusual size openings.

SOMERFIELD (double) ▲

A traditional gate and a popular choice for residential entrances. Shown here as a double but single gates are available too. Produced in pressure treated semi-planed softwood.

Sizes : 10 widths from 3' to 12'

SOMERSET (single) ►

A classic style entrance gate in a choice of smooth fully planed softwood or hardwood. Looks good in any location. A range of widths available to fit most sizes of opening.

Sizes : 10 widths from 3' to 12'

4

GATES

ESTATE (double) ▲

The styling of the Estate gate with its curved 'hockey stick' upright creates an impressive alternative to conventional rectangular shapes. This Estate gate is in hardwood and shows how an unusually wide entrance has been solved with a main gate and a smaller, convenient side gate.

Sizes : 10 widths from 3' to 12'

ESTATE (single) ▼

A larger width of single gate is ideal for this entrance which has the space for a large swing span. The substantial gate posts add to the grandeur of this entrance.

Sizes : 10 widths from 3' to 12'

KISSING GATE ▲

The practical solution for pathways and where public access is to be maintained. Particularly rugged construction. A popular solution that is appreciated by many users. Prevents cattle escaping at all times - cannot be left open like a conventional gate.

FENCING

GATES

SERPENTINE GATES

The ultimate in impression and style, Serpentine Gates look equally superb in rural, suburban and town/courtyard locations. Whatever the opening, we can create these gates to fit perfectly and they offer you the chance to exercise your imagination.

These gates produce the grandest of first impressions of a home and their structure ensures excellent privacy and improved security.

FENCING

6

GATES

CUSTOM MADE GATES

Entrances to properties come in all sizes and frequently gates must be custom made to fit the opening accurately.

This gives you the opportunity not only to have a perfectly fitted gate but also to influence its style, materials and structure. Of equal importance are the mounting posts and how they and the gates complement the adjacent fence or hedge.

With the freedom to specify your own type of gate and with the skill of our joiners to match your instructions, we can make sure that the result is a grand entrance that is perfectly in keeping with the style and presentation of your property.

Tel: 01829 740136 www.ringwoodfencing.co.uk

Ringwood
FENCING

GATES

GARDEN GATES

Personal entrance gates can make a great impression, especially when they match the design of adjacent fencing or main gates.

Whether you know exactly the type of garden gate you want, or whether you still have an open mind, Ringwood will solve your problem. We have many types available and we can only give you a sample here but do remember that other styles are available and we are always ready to help with our advice.

Gates are available in standard widths or can be produced in special sizes if required.

WCKET GATE

Similar to pointed paling but some people prefer the smooth fully planed finish.

8

GATES

- O** - Osmose treated
- P** - Protrim
- U** - Untreat

ORCHARD

ledged and braced with curved top and smooth finish, pressure treated for long life. Size 3' (0.915m) wide x 6' (1.83m) high.

O

COUNTRY

A popular framed, ledged and braced gate with feather edge boarding, offers privacy and security. Supplied in pressure treated softwood for long life. Size 0.9m wide x 1.78m high.

O

PRIORY

A natural untreated softwood T,G & V boarded arch top side gate, ledged & braced. Use a preservative in the colour of your choice prior to installation. Size 3' (0.915m) wide x 6' (1.83m) high.

U

TOWN

Quality framed, ledged and braced natural colour softwood, treated with a clear protrim Pre-Vac solution, T&G boarded, offering privacy and security. Size range 3' (0.915m) wide x 4' (1.22m), 5' (1.53m), 6' (1.83m) high.

GARDEN FENCING

FENCING PANELS

VERTICAL BOARD PANELS WITH CONCRETE POSTS

Concrete posts, square trellis top panels and 'stone face' concrete base panels produce an alternative style.

Sizes: 6' x 6' 6' x 3'
 6' x 5' 6' x 2'
 6' x 4'

Base Panel
 Size: 6' x 1'

VERTICAL BOARD PANELS

Neat visual presentation and excellent screening from these, probably the sturdiest of fencing panels.

Sizes: 6' x 6' 6' x 3'
 6' x 5' 6' x 2'
 6' x 4'

Base Panel
 Size: 6' x 1'

DIAMOND

GARDEN FENCING

Waneylap Panels with concrete post and base

WANEYLAP PANELS ▲

Waneylap is definitely a favourite offering good screening and neat lines. It works in any location, town or rural.

Sizes: 6' x 6' 6' x 3'
 6' x 5' 6' x 2'
 6' x 4'

POINTED PALING PANELS ▲

Paling is always popular and lends itself to being finished in alternative colours. This example produces an immaculate presentation, especially with the neatly trimmed hedge.

Sizes: 6' x 6' 6' x 3'
 6' x 5' 6' x 2'
 6' x 4'

VERTICAL ARCH/BOW PANELS ▲

Efficient screening from the vertical panels with additional character provided by the shaped tops in either arch (convex) or bow (concave) formats.

Sizes: 6' x 6' 6' x 3'
 6' x 5' 6' x 2'
 6' x 4'

ROUNDTOP PALING PANELS

Roundtop paling is very effective when used in short heights to 'top' low walls. Matching gates are always available too.

Sizes: 6' x 4' 6' x 2'
 6' x 3' 6' x 1'6"
 6' x 2'6"

Pointed Paling Top Shapes

14

GARDEN FENCING

FEATHER EDGE FENCE ▲ ►

A sturdy structure that's rigid, built to last and takes the elements. Excellent screening.

HIT AND MISS FENCE ▼

We show two pictures to display how 'Hit and Miss' works in both suburban and rural locations. Possibly a sensible choice for places exposed to high winds.

This picture shows you reverse side structure of a feather edge fence. You can see the built-in strength just by looking at it.

Feather edge with capping

Detail shot of Horizontal Hit and Miss

Ringwood
FENCING

GARDEN FENCING

ARCH PALING ▲

Delightful styling and economy producing great garden presentation.

A morticed pointed paling fence.

POINTED PALING FENCE ▲

This fence can be enhanced by feature - shaped tops to create curved top lines. Paling is a practical choice when a degree of 'see-through' is required, e.g. to keep children's play areas in sight.

Vertical Board with Standard diamond Trellis

◀ CHESTNUT FENCE

Economical and functional fencing but with a simplicity that many find very attractive. Ideal for temporary protection to trees, hedgerows and landscaped areas. A practical, low cost solution.

16

POST AND RAIL FENCING

Post and rail serves a different kind of role in fencing. It does not create an impenetrable barrier or screen and hardly prevents human access. However it does define borders neatly and precisely, it is easy to erect and is an excellent barrier to many types of livestock. And its very simplicity can still add a distinct style to many locations.

ROUGH SAWN SQUARE POST AND RAIL ▲

Highly practical, fencing solution to which other features can be added.

Rail Sizes :

3600 x 87 x 38 1st Quality
 3600 x 100 x 38
 3600 x 100 x 50
 2700 x 75 x 50

Post Sizes :

1500 x 75 x 75
 1800 x 75 x 75
 2100 x 75 x 75
 1500 x 100 x 75
 1800 x 100 x 75
 2400 x 100 x 75
 1800 x 100 x 100
 2400 x 100 x 100
 2700 x 100 x 100
 3000 x 100 x 100
 3600 x 100 x 100
 1800 x 125 x 75
 2100 x 150 x 75
 3600 x 150 x 50

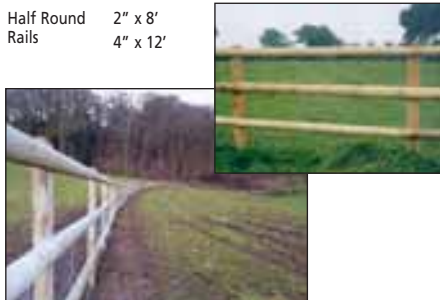

HALF ROUND POST AND RAIL ▼

This features half round rails which can be mounted onto different types of post, e.g. square, round or half round. A flexible fencing system that works well over undulating and uneven ground.

Round Posts (peeled & pointed)	2"-3" x 8' 2"-3" x 5'6" 3"-4" x 5'6" 3"-4" x 6' 3"-4" x 8'	Round Posts (machined smooth)	2" x 5'6" 3" x 5'6" 3 1/2" x 5'6" 4" x 5'6" 4" x 8'
--------------------------------	--	-------------------------------	---

Half Round Posts (peeled and pointed)	3" - 4" x 5'6" 4" - 5" x 5'6" 5"-6" x 6'	Half Round Posts (machined smooth)	4" x 5'6"
---------------------------------------	--	------------------------------------	-----------

Half Round Rails	2" x 8' 4" x 12'
------------------	---------------------

POST AND RAIL FENCING

MORTICED POST AND RAIL ▲

This fence, with morticed joints, produces a more attractive structure and a better finish.

RUSTIC CHESTNUT FENCE ▼

Of all post and rail fences this is the one that generally produces the most compliments. It fits so well in a rural location and has the character in shape and form to make it an attribute on the landscape rather than an eyesore. Morticed joints in square posts ensure good rigidity.

KNEE RAIL ▼

Inobtrusive and neat, yet immensely practical, knee rail is perfect for defining public areas, sports pitches, parking areas, etc. without producing an ugly and unfriendly barrier.

18

GARDEN DESIGN

Here is a range of fencing and timber products that can help you add that 'designer' look to your garden. Use a little imagination by adding unusual colour, position them unconventionally and embellish them with climbing plants. However good these products look, erecting them is only the start. Let your creative ideas flow and your imagination run wild !

SQUARE TRELLIS ▲

The classic trellis with a 4" square pattern. Our trellis comes in a variety of panel sizes and shapes including top panels in arch or bow shapes. Add square posts, post caps and planters to make a distinctive structure.

Panel Sizes :

Styles : Square, Arch/Bow, Privacy.

Sizes	:	6' x 6'	6' x 3'
		6' x 5'	6' x 2'
		6' x 4'	

RUSTIC DIAMOND TRELLIS ▼

This is a fairly recent addition to our range and it is creating a lot of interest ! The trellis pattern is made of half round timber and the panels can be supplied in sizes to 'top' walls (as shown here) or as full size 6' high panels to create a continuous fence.

As an option you can have the trellis made of round section timber.

Tel: 01829 740136 www.ringwoodfencing.co.uk

Ringwood
FENCING

GARDEN DESIGN

(Above) A privacy patterned, bow topped fence beautifully finished with a deep, rich stain that perfectly suits the property.

Styles : Square, Arch/Bow, Privacy, Privacy Arch/bow
 Sizes : 6' x 6' 6' x 3'
 6' x 5' 6' x 2'
 6' x 4' 6' x 1'

DIAMOND TRELLIS

For those who prefer this diamond pattern, it is also available in pattern sizes that offer different levels of screening. Add to that a choice of different panel shapes and you can create the concept you want.

This is the standard pattern size but the arch top shapes and ball caps add a note of distinction.

Privacy square trellis features a smaller square pattern which acts as a better screen. An arch topped panel with tighter privacy pattern finished in a soft green shade adds to this courtyard scene above. Now it only needs the climbing plants to finish it perfectly.

HEAVY FAN TRELLIS

20

GARDEN DESIGN

Willow Hurdle Gate

WILLOW HURDLES

The re-emergence of willow in recent years delights us. It has centuries of use in rural applications and its value for domestic use has now been recognised. It has a unique richness of character and is material that is both natural and sustainable. An excellent windbreak.

Willow Hurdles Willow Rose Arch

GARDEN DESIGN

TIMBER RETAINING WALL

Machine round timbers can be used to create all sorts of landscaping features. With these materials, we can create virtually anything you can imagine.

Versatile log patterns and retaining walls supplied in a roll format or as straight panels.

22

GARDEN DESIGN

ROUNDTOP ARCH

JANELLEN ARCH

ROSE ARCHES

Rose arches are available in a wide range of styles and materials - far more than we can show you here.

The character of your home and garden will tend to guide you towards either rustic poles for the more traditional and historic feel, or machined materials to match the contemporary style of a modern home.

Either way, rose arches give you the opportunity to flex your horticultural imagination ! Depending on your plant selection, you can soon encourage abundant growth over and around the arches bringing colour, relief and shape to what may well originally be a featureless area.

STANDARD PERGOLA

KDM OMEGA ARCH

We can advise and help you select the right style to suit your garden and you can be sure that the pressure treated Ringwood timbers will give your arches the longest possible life.

TIMBER DECKING

Timeless Timber Decking offers you one of the most creative, stylish and flexible ways to extend your living space and add a new sense of design to your garden.

It enables you to add a uniquely attractive area where you can reap a greater level of enjoyment from your leisure time. It is both functional and adds real asset value to your home.

The beauty of it not only lies in its distinctly eye-catching presence but also in the ease of maintenance and its guaranteed long life. With a minimal level of simple maintenance, timber decking can give you a 20 year life.

Tel: 01829 740136 www.ringwoodfencing.co.uk

The logo for Ringwood Fencing, featuring a stylized illustration of a fence above the company name. 'Ringwood' is written in a cursive script, and 'FENCING' is in a bold, sans-serif font inside a rectangular box.

Before

After

TIMBER DECKING

The secret lies in Ringwood Fencing's timber. Using only high quality pressure treated timber, and with a water-repellant preservative, Ringwood decks could not be better protected to withstand the rigours of even the toughest British winter. Water absorption is reduced and the integrity of the wood maintained for a long life.

Timeless Timber Decking is probably one of the most exciting designer-features you can add to your home - and also one from which you will enjoy a huge level of satisfaction.

Patterns include herringbone, mitred, diagonal, bulls-eye, basketweave or standard parallel and we can show you the visual effect of each in our portfolio.

Then you have a huge choice of balustrading in many different styles. Select the spindles, rails and newels that complement your decking to the best to give it a superior finish. And, of course, we can include quality fencing to match your decking to perfection.

JOINERY AND WORKSHOP

Many Ringwood products are originally created in our own workshop. The workshop is manned by our team of joiners who are masters at creating quality products in wood.

If you have your own ideas about a particular style of fencing or wish to make your own statement on an entrance gate of distinction, share your imagination with us.

We can interpret your ideas, give you a clear unambiguous quotation for the work and create it in timber. We can bring your ideas to life!

Ringwood
FENCING

CONTRACTING

For over fifteen years Ringwood Fencing have offered professional contracting services throughout the North-West and North Wales. Every day our teams of fencers are erecting Ringwood products on site in commercial, public and domestic locations.

The Ringwood teams are not only highly trained but are also equipped with the tooling to complete work accurately and in the shortest possible time.

This helps keep our contracting charges competitive whether we are simply hanging a small household gate or erecting the fencing for a complete housing estate.

You can always recognise our contracting teams by their distinctive Ringwood-liveried pick-up trucks.

Let us quote for your contracting work and you'll be pleasantly surprised.

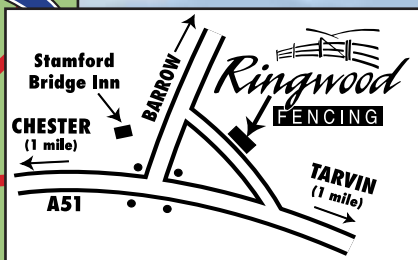

32

Where we are...

We sell direct to the public and trade and you are welcome to visit our warehouse. It is conveniently located on the A51 road approximately one mile from the outskirts of Chester. From the Chester ring road and A55, travel east as if heading for Tarvin. At the first traffic lights on this road (Stamford Bridge Inn is on the left), turn left, then first right and you have found us.

Ringwood
FENCING

The warehouse has massive displays of fencing and is packed with thousands of products not mentioned in this brochure :

- Hardware • Ironmongery • Tools • Garden products • Paints
- Wood stains • Preservatives • Horse and pet feeds • Pet products
- DIY • Plumbing • Electrical

And you'll see just how low our prices are compared to the so-called DIY 'super' stores. We don't have the frills, but we do have an Aladdin's Cave of products and some spectacular low prices.

Opening times : Mon-Fri: 8.00am - 5.00pm
Sat: 8.00am - 1.00pm

For those awkward loads, our delivery service is available.

Due to a policy of continuous improvement we reserve the right to alter or amend the product specifications in this literature. ©Ringwood Fencing Ltd 2006
